Shakespeare Section Tuesday
Afternoon Club Presents
Pleasing Entertainment

The presentation of Act I, Scene I, and Act V of "A Midsummer Night's Dream" by the members of the Shakespeare section, of which Mrs. A. H. Montgomery is curator, under the personal direction of Mrs. Henry W. Ralston at the regular meeting of the Tuesday Afternoon club at Masonic Temple yesterday afternoon proved to be one of the most delightful and entertaining programs in some time, and again displayed some of the unusually fine talent among the club members. The section members were also aided materially by pupils of the Pearl Keller dancing school.

For the occasion the stage had been enlarged four feet on either side and twelve feet to the front. The seats were arranged in a semi-circle and even with this additional seating capacity there were many standing in the ante-room who could not be accommodated elsewhere. The stage settings included the two tapestries which were recently given to the club by Mrs. C. M. Turck and which formed a suitable background for the beautiful costumes, and also several benches with rugs and draperies.

H. C. L. IN OLD MEXICO MAKES MONTHLY CHECK INTO SCRAP OF PAPER

Eggs, 12 cents apiece.
Milk 50 cents a quart.
Butter 82 per pound.
Rent \$260 a month, house unfurnished.

No, these are not Glendale or southern California prices, but in climate that is said to be similar, down at San Luis Potosi, Old Mexico, from whence Mr. and Mrs. S. D. Hine arrived this week to visit at the home of the former's sister, Mr. and Mrs. W. F. Carroll of 635 North Isabel street.

Wages are proportionately high, Mr. Hine states, and \$600 a month is equal to \$150 or \$200 here in the states. The poorer Mexican residents know little of the comforts common here and do not appreciate them, although the higher classes are well-to-do and gold is the money that counts.

Mr. and Mrs. Hine have resided in Mexico for 20 years and he is at present engaged in the lumber business. Everything is prosperous for the present and Americans are perfectly safe under Obregon's

SPANISH SOCIETY HOLDS INITIATION

High School Organization In
Session Gives Greeting to
Thirty New Members

The regular monthly meeting of La Tertulia, the official Spanish society of the Glendale high school, took place yesterday afternoon in the school auditorium, the affair being in the nature of an initiation and entertainment in honor of the new members.

Following the initiation ceremonies, in which about thirty members of the various Spanish classes were taken into the organization, the merry-makers adjourned to the cafeteria, where they were served with real Spanish refreshments.

Following the serving of the refreshments, the sixty members of the club returned to the auditorium, where they witnessed two one-act Spanish plays staged by students of the society.

The members of the faculty who took part in the affair were: Miss Bossie L. Field, Miss Iva Hunter, Miss Fay McEndree and Mrs. Bessie J. Stone.

Christian Circle Has Dinner, Business Meet

The Christian Circle club met at the Baptist church last night, eighty girls being in attendance. The bountiful dinner was served by the women of the Casa Verdugo Methodist church and splendid enthusiasm was displayed over the short business session at which Miss Nell Leggett presided. GEORGE K. BARNES, PIANO BUILDER, IS DEAD, AGED 78

Retired Manufacturer Passes
Away at Casa Verdugo;
Funeral on Thursday

George K. Barnes, aged 78, died at his home here yesterday noon, 1311 North Brand boulevard, Casa Verdugo. He was a pioneer in the modern manufacture of pianos and was instrumental in the organization of several well-known companies.

Ten years ago Mr. Barnes retired and came to southern California, both he and his son, Everett K. Barnes, building homes in the Casa Verdugo district. A widow also survives. Funeral services will be held tomorrow (Thursday) afternoon at 2 o'clock from the Jewel City Undertaking parlors, the Rev. E. E. Ford officiating.

Former Associates

Pallbearers selected are men who were formerly associated with Mr. Barnes, or local acquaintances. They are Edwin Searles, president of the Bartlett Music company; J. F. Salzer, former president of Bartlett Music company; George P. Bent, former manufacturer of the Crown pianos; J. C. Pond, an associate in Northern Pacific offices; Julius Kranz and Captain H. B. Deuring.

When a young man Mr. Barnes entered the employ of the Northern Pacific railroad company and rose to the position of general passenger agent. Later he entered the musical manufacturing business and became identified with the world-famous Chicago Cottage Organ company, now known as the Cable company. When the piano increased in popularity, he became the junior member of the Smith & Barnes company.

Sees Glendale Grow
With his son, Everett K. Barnes, he moved to Rockford, Ill., where Barnes & Son instruments were turned out until the Schumann Piano company absorbed the plant, the Barnes' retaining their interests, but retiring from active management. The younger Mr. Barnes is making musical novelties in Los Angeles.

California out-of-doors had a great appeal for the retired piano manufacturer and he took a great pride in "puttering" around his property homeplace here in the foothills. He was active in the Casa Verdugo Improvement association and saw Glendale grow from a village to a city of 25,000.

C. OF C. DIRECTORS FOR SERVICE MEN

Organization In Favor of Compensation Adjustment for
Veterans of War

The Glendale Chamber of Commerce directors unqualifiedly stand for compensation of the former service men as proposed in various bonus projects coming before congress. This attitude was taken in the consideration of the United States Chamber of Commerce referendum No. 38 and on motion of Richardson D. White, seconded by Owen C. Emery, both former service men, the secretary was instructed to record Glendale in favor of compensation legislation.

Circulation of petitions to abolish the state railroad commission will be held in abeyance until after the hearing of the Pacific Electric rate case on January 24. Albert Vack, D. C., who was present, raised his voice in opposition to the telephone charges which are paying for the installation of automatic service, he claims. This system will throw hundreds of working girls out of employment, it was added.

Make Plans for Work
Mrs. M. L. Tight introduced members of the membership committee including Mrs. P. A. Pollock, Charles R. Snyder and Dr. Vack. Immediately after the delightful luncheon which was served by the Glen Inn staff, the membership committee adjourned to conference rooms with Assistant Secretary E. F. Sanders and laid plans for the work during the year.

Thomas E. Ford of the Times Sunday Magazine was present and promised to have a picture page in the Los Angeles Times at a later date. He told of selling some lots in this city for \$200 for which he could now obtain \$2000, so he is impressed with the progress of this community.

J. F. SWISHERS ARE HOME FROM TRIP

Find Plenty of Snow, but Very
Little Sunshine While on
Visit in Northwest

Mr. and Mrs. J. F. Swisher of 336 North Orange street have returned from a month's trip to Sunnyside, Wash. They left Glendale on December 16 by automobile and drove as far as Modesto. From that city they boarded a train.

When they came to the Shasta mountains, they were reminded of former winters in the middle west, because for miles and miles there was more than three feet of snow. This snow blanket extended from the Shasta mountains until they reached Sunnyside, where it was about seven inches thick.

Sunnyside, Calif., is located in the Yakima valley about 200 miles east of Seattle.

Mr. and Mrs. Swisher declare that the valley is very rich and productive, but a little too near the north pole for people of southern California to enjoy in the winter time. There was very little sunshine during their three weeks' visit with their friends in that city, and although they had a nice trip, were glad to return to Glendale.

They also state that on the way back the sun was obscured by fog until the Tehachapi mountains were reached, when it burst forth in such splendor that they really felt that there was no place on earth like southern California and no city like Glendale.

BETTY COMPSON IN WALLACE REID IN FEATURE PICTURE. 'RENT FREE' NOW AT GLENDALE AT T. D. & L.

'For Those We Love' Is Title of New Release; Program Is Well Appreciated

'For Those We Love,' the new Betty Compton picture released by Goldwyn, which is now being shown at the Glendale Theatre, is a story of the struggle of a gambler to live up to the opinion that a simple, country girl has of him. Knowing nothing of his means for earning a livelihood, she accepts him as a courageous man, after he has saved her life. And, later, when she learns what his habits are, her unflinching faith in the inherent fineness of his nature gives birth to a desire on his part to live up to his better self.

Give Fine Performance

Betty Compton as the girl, and Lon Cheney as the gambler, give fine performances; and, though the gambler loses the girl in the end, his life of noble self-sacrifice has not been in vain. Through her, he has come to know himself.

The late Harry Duffield as the father of the girl gives Glendale people another glimpse of this grand old man of the stage and screen.

Several short features round out the interesting bill while Paul Carson's playing at the organ is highly appreciated.

Large Crowds Satisfied by Program Being Offered; Laughs and Thrills

The many hundreds of Glendale folk who attended the opening performance of Wally Reid's latest picture, "Rent Free," at the T. D. & L. Theatre yesterday came away with that thoroughly satisfying feeling of having seen a "good show" and enjoying every minute of it.

For laughs and thrills it is a wonder. Really one of Wally's best. There is story, plot and action aplenty and it really does turn the dark blues into sunshine and laughter. Every moment is a happy one and the entire house is brought down with uproarious laughter. It is quite out of the ordinary run of pictures, being novel and odd in many respects as to settings and situations particularly.

Personal Pictures

Besides the feature picture—excellent entertainment was offered by screen snapshots (personal views) of Mary Pickford and Douglas Fairbanks, Connie and Norma Talmadge, Richard Barthelmess, Wallace Reid and others. The comedy, "Assorted Heroes," also lent additional fun-making to the program, followed by Geo. Olsen's musical selection, which pleased admirably.

Those who did not see this wonderful show last night will have the opportunity of doing so either today or tomorrow and, as Ralph Allan says, "it is guaranteed to entertain and make you laugh."

Injured Workers in California Are Given \$6,346,658 for Hurts

SAN FRANCISCO—Industrial injuries in California are on the increase.

A report of the industrial accident commission just made public shows the comparative figures as follows:

	1919	1920
Industrial deaths.....	586	592
Permanent injuries.....	1,714	1,929
Temporary injuries.....	105,952	131,587

On a basis of population deaths showed a 2.6 per cent decrease, the commission points out, however.

Out of the 592 deaths 490 were compensable under the state workmen's compensation act.

There were 183 deaths caused by vehicles; machinery was the cause of 102 deaths; electricity caused 48 deaths and explosions and firearms caused 8 deaths.

Indications from the report are that women are now better protected in industry, as there were but three women killed while at work in 1920 as compared to nine women in 1919.

With the exception of 1919 the number of deaths was the smallest since 1915.

The average age of the killed during 1920 was thirty-seven and the average wage \$31.78 a week, as compared with 34 years and \$28.51 a week for 1919.

The sum of \$6,346,658 was awarded the 134,108 injured workers, including dependents of those killed in 1920.

No. 13 Is Real Jinx for Old-Time Vessel

HONOLULU, T. H.—The number "13" may be a lucky one, and Friday may be the best day in the week on which to start a journey, but the record of the old-time schooner Sailor Boy, now dismantled and about to be scrapped in Honolulu harbor, would indicate otherwise.

The Sailor Boy, built in Oregon in 1883, was at one time one of the fastest sailing vessels on the Pacific. That was before the "13" and "Friday" jinxes got in their dirty work.

On Friday, December 13, 1910, the Sailor Boy cleared from San Francisco for the South Seas. Seven days later her clock went wrong and struck thirteen times. An hour later heavy seas crashed over her, dismantling sails and rigging and necessitating putting back into San Francisco. On Friday, January 13, 1911, the ship, her rigging repaired, set sail once more. She arrived at Fanning Island on a Friday, and that night the clock went wrong again and struck thirteen. The cook deserted forthwith. After beating about between Fanning, Ocean Island and Tarawa, frequently weighing anchor on a Friday and as frequently encountering some mishap, the schooner was becalmed near Fanning, where a current drove her onto the reef. Here she lay for thirteen days before she could be floated.

Two years later the Sailor Boy, her masts washed away and her hold full of water, was towed into Honolulu harbor from what was destined to be her last voyage. The date was September 13, 1913.

Great Financial Gain by Railroads, Claim

WASHINGTON, D. C., Jan. 18.—Railroads of the United States gained \$200,000,000 during the period of government control through increased values of materials and supplies paid for by the government. Clifford Thorne, attorney for the shippers, asserted before the Interstate Commerce commission during its investigation of the transportation situation. This gain, Thorne said, did not represent any money paid out by the railroads themselves.

SCHOOL GYM CLASS IS PROPOSED FOR BUSINESS MEN

Coach Howard Butterfield to
Hold Meeting on Thursday
Night to Tell Plans

Mr. Business Man!
How's your pep?
Is your engine still hitting on all four cylinders or are you running with a lot of loose valves, a carburetor that needs adjusting and spark plugs that need cleaning?

Can you bend over and touch your toes without bending your spine? Can you hold your breath until the postoffice site is settled?

Does your heart thump violently every time a California senorita tries to vamp you?

Can you run over the Verdugo Hills to La Canada without getting out of breath?

If you won't admit that you can do all of these things with the perfect sangfroid of a Spanish athlete, it is a sure sign that Old Age is signed up as your sparring partner.

Get Back Into Form
Bernard McFayden says "Exercise!" So does Coach Howard L. Butterfield.

You are invited to attend a meeting in the high school auditorium Thursday night at 7:30 o'clock to consider what the high school gymnasium can do for you?

A business men's gym class may be organized.

If you are feeling young—or want to feel young—be there, is the plea of Coach Butterfield.

LOCAL REAL ESTATE GOVERNING BOARD HAS MEETING

Much Important Business Is
Under Consideration at
Session Last Night

The Glendale Realty Board governing committee held one of the most enthusiastic and important meetings of its existence last night in the rooms of the Chamber of Commerce. Several matters of very great importance to the real estate profession and to the welfare of the city of Glendale came up for discussion, and the proper action was taken to further these projects.

"One matter of more possible benefit to the city of Glendale than any which has developed in the past two years was initiated, and when it is fully known, will be supported most heartily by every citizen and organization of Glendale. Owing to the fact that it is yet in its infancy, the publication of this plan is being withheld for a short time," the governing committee announced.

The board voted to make application to the National Association of real estate boards so that each member of the local board will become thereby a full-fledged realtor, and only thereby will be authorized to use that term in the conduct of his business. It is the plan of the president of the California Real Estate association to present to the president of the National association, at the State Convention being held at Oakland on the 19th to the 21st of this month, an application to the National association from every one of the fifty-seven local boards of the state of California.

Points on Organization
Communications were read from the Long Beach Realty board and the Toledo, Ohio, Realty board, regarding the organization and methods of conducting the business in those cities. A committee was appointed to investigate thoroughly their plans, and to make a report to the Glendale board as to whether or not it would be practical to adopt such methods here. It would cause a rather drastic change in the conducting of the business here in Glendale, but it is believed by many that it would make for more uniformity and stability, and for absolute protection for the broker, and for the seller and buyer. A little later a full report on this matter will be made, it is stated.

Other committees, the personnel of which will be announced later, were made as follows: Membership, schedule of commissions, committee of insignia for window display, and a publicity committee. It was further recommended that each member of the board should state in every advertisement that he is a member of the Glendale Realty board, as it will inspire more confidence in the people coming to Glendale to do business with dealers who are organized to do business on a uniform and co-operative basis.

The next regular meeting of the board is to be in the nature of a luncheon, to be held at the Chamber of Commerce on Tuesday, January 24, at 12 o'clock sharp. A short and snappy meeting is going to be held, the doors being open promptly at 12, and the meeting adjourned promptly at 1. Besides the regular business of the board, which will be dispatched with celerity, a prominent speaker will be invited to give a talk on some matter of interest, and probably of instruction to a real estate broker.

F. GRAYSON SAYRE WINS ART HONORS

Mr. and Mrs. H. N. Sayre of
Glendale Hear of Fine
Work Son Is Doing

The art exhibit in San Francisco of water color paintings by F. Grayson Sayre of Chicago, son of Mr. and Mrs. H. N. Sayre of 914 South Glendale avenue, Glendale, has created considerable of a furor among the artists and art critics of that city. His exhibit includes studies of the desert and mountain scenes and is said to comprise one of the most startling and interesting exhibitions that has been seen in some time in the northern city.

Mr. Sayre has been working out a technique with which to reproduce the wonderful color effects of the desert. One of the features about his paintings which has caused considerable comment is the fact that he has been able to mix the colors in such a way that they seem to vibrate and be alive. The medium used by him is opaque water color.

Mr. Sayre is also a thorough draftsman and did pen and ink work for years. He recently sketched several of the leading figures in the Arbuckle trial in San Francisco at the request of one of the newspapers of that city. Mr. Sayre's collection of pictures will be on exhibition until February in the Rabjohn & Morcom galleries of San Francisco.

Two Story Structure at Hawthorne, Central

L. A. Hart of the Hart Realty company, 113 West Broadway, states that plans are under way for the erection of a two-story building at the corner of Hawthorne street and Central avenue to house a cafeteria with flats above.

COMMENT THAT'S ALL

Steady Nerves Required
Deportation for Flappers
Clean Up California
Wanted: Business Men

By Gil A. Cowan

LENDALE and all southern California last night experienced a sensation to be found in the battle zones.

Target practice by the Pacific fleet off San Pedro reverberated over mountains, across valleys, and the rattle of windows was noted hundreds of miles away from the scene of the shooting.

The tremors were noted again this morning when the big guns of the California belched forth in target practice. New records are expected to be made.

But there is one thing certain—if practice alone can promote the hysteria noted last night, air raids, shelling a city or real war thrills would require mighty steady nerves.

Glendale has a hard time getting any publicity, because of its good record. Hollywood gets a lot, because it is pointed out. Now that film community rises to remonstrate.

A propaganda campaign to combat magazine and newspaper articles which have carelessly and maliciously attempted to slur Hollywood, is to have the backing of the Chamber of Commerce and picture producers.

Truly, it can be said that a lot of stuff hung on Hollywood is pure, unadulterated "bunk," but there is much that could be done to better conditions.

When Los Angeles deports the several thousand small town "flappers," who are lured to Hollywood by the stories of fabulous salaries, stories by the publicity departments on how to become a movie queen, etc., it will have taken the first step in solving the problem.

There are many high minded people engaged in the motion picture game—Ben B. Hampton among them, it seems. But to every star you can name a half dozen lesser satellites and so it is with the morality and mentality of studio workers.

One rotten apple will spoil the whole barrel and one immoral, lascivious director or manager will give a whole plant an immoral tone. A little legal action would go a lot farther than counter-propaganda. Determination to clean up conditions complained of would eventually rectify wrong impressions.

While twenty-five to fifty business women avail themselves of the opportunity of the girls' gymnasium at the Glendale Union high school two nights a week, the business men of the town seemingly show little enthusiasm.

Buck up, old boys! Get into the game and hop around to the high school tomorrow, Thursday, night and sign up for a course in gymnastics every Tuesday and Thursday night. A. L. Ferguson, principal of the night school, wants a good number present.

Everybody out, as the "top kicker" used to yell.

Standard Oil Squad to Battle Long Beach

Mr. and Mrs. Van Arsdale Smith of 514 North Jackson street were week-end guests at Colton. Monday night Mr. and Mrs. Smith accompanied the basketball team of the Standard Oil company of Glendale, of which Mr. Smith is special agent, to San Pedro, where they met defeat by a score of 40 to 12 at the hands of the Standard Oil company's team of that city. The Glendale team will play Long Beach tonight at the local high school.

Mr. and Mrs. Smith will entertain as their guests over this week-end Miss Ruth Hutchinson of Pasadena, who recently appeared on the program of the Glendale Music club, and Mr. and Mrs. Leon Lamson of Devore, Calif. Activities planned for the week-end include theatre, dancing and picnic parties.

PLANS TRIP TO HOLLAND

Henry Michel, well known contractor and builder, is contemplating a trip to Holland in the near future. He will be accompanied by his family.

School Picnic Provides Plenty of Amusement

Glowing accounts of the picnic held in Griffith Park last Saturday by the second division of the Asth class have aroused the enthusiasm of members of the first division of the class toward a similar picnic to be held the same place next Saturday. The youngsters were taken to the scene of the "revelries" in automobiles driven by parents. After working up a healthy appetite playing games, the lunches, which had been brought from home, were devoured. Miss Clara Midcaif, class teacher, reports that the quantity of food consumed was simply enormous. Meanwhile, Miss Edith Tyler, class teacher, is wondering if it wouldn't be more convenient to have next Saturday's picnic close to a food store.

Announcement!

During the past few weeks several hundred lots have been sold, in Glendale and adjoining territory, at prices ranging from \$1000 to \$2000, while some tracts priced from \$2000 to \$6000 per lot have been sold out in a few days.

Notwithstanding this active demand for these higher priced lots, there is an even stronger demand for well located lots that can be purchased for \$500 to \$700.

Not until now have we been able to supply this demand, having just been authorized to offer a small block of lots for \$495 each with only \$50 down and \$10 per month.

Other lots from \$525 to \$695, same easy terms. These lots are level, good soil, fine mountain view, cheap car fare and close to school. The streets are now being improved and water and gas installed.

We have no assurance that we can have more than a few days on this, as the owners plan an extensive campaign in Los Angeles and undoubtedly they will be able to dispose of the tract in a short time.

We advise you to act quickly and get your choice of these lots before the formal opening of the tract.

Buy a lot and save paying rent.

Illinois Plans to Have Industrial Aid for Small Towns

CHICAGO—The Illinois Chamber of Commerce has undertaken the solving of the "unbalanced communities" problem.

"Minor cities in Illinois," explained Harvey T. Hill, secretary, "make no development frequently because only one-half or one-third of the population can be producers. They must support the remainder of the population. The others must remain in enforced idleness."

"This condition of unbalanced communities forms a problem for many states. The Illinois Chamber of Commerce intends to take up the settlement of the problem in a big way."

The plan is to build up these communities.

Mr. Hill is preparing booklets giving in detail the industrial opportunities in each city in the state where there is an unbalanced industrial situation.

As an illustration Mr. Hill pointed out the situation in West Franklin. He said that there have been 1000 houses built there during the last year but that the only employment is in the coal mines. For women, girls and others who cannot work in the mines there is nothing, and when the coal mines shut down the city is prostrated.

"This is the condition we will endeavor to correct," said Mr. Hill.

"We are going to carry on a nationwide campaign in 1922 to discover industries in the east and elsewhere that are looking for a change in location. There are numerous industries which can flourish in this state that face bankruptcy in more evenly-balanced cities in the east."

CHINESE PAPER FOR UNION TO COMBAT 'WHITE PERIL'

Chino-Japanese Combine Need
Is Claim; Fear of America
and England Expressed

SHANGHAI, China—An editorial under the caption, "Naval Movements of America and Britain on the Pacific," appears in the Japanese newspaper in Hankow, Hukwang Hsin Pao, published in Chinese, in which the editor states that the Japanese fear the "White Peril" in the Orient.

"Following the appearance of the Pacific conference," he says, "the most striking phenomena of the situation are: The attempt of America to enter her naval fleet on the Pacific and the plan of Great Britain to expand her far eastern fleet."

"During the present period of shifting politics of the international situation the newspaper editors of the various nations, actuated by the interests of their own countries, are apt to make an exaggerated propaganda. Therefore the extent to which America and Britain will likely put their plans in effect cannot be prognosticated at present."

To Extend Commerce

"But, since America and England have already hatched such plans, it is beyond doubt that they will sooner or later carry them out vigorously. Viewing the matter in this light, it must come about that from now on America and Great Britain will continue to expand their forces of the Pacific in order to back up and extend their commerce."

"The purpose of the writer in this article is to discuss the facts and tendencies as they affect the destinies of China and Japan, both being vitally concerned. The movements of America and Great Britain lead us to the following observations: Since both countries are no longer paying any attention to armaments on the Atlantic ocean it is likely and probable that they have arrived at an understanding. Furthermore, suppose these two countries have united?"

"However humanitarian we are it has already become deep seated in the minds of the whites that racial alienation between the white and yellow races is a natural impediment and can in no way be bridged. Now between China and Japan, of the same yellow race and closely related, too, should we not organize a consolidation by taking advantage of all natural expedients? I say indubitably we should have a solid union."

Misunderstood, Claim

"But there are a great many misunderstood diplomatic questions outstanding between China and Japan. And particularly is the Shantung question a stumbling block in the way to union. For several years the authorities and peoples of both countries have been in vigorous contention. Yet if, outside of the two countries, China and Japan, there were no other countries interestedly watching, then little difficulty would present itself. But, since there are other nations watching with envious eyes, why should we not remedy our mutual shortsightedness and extend our views and sight to a wider horizon and make mutual compromises and quickly settle the Shantung question so that we will be lined up to resist the coming white peril?"

City Decorates Woman for Her Civic Work

By HAZEL BLAIR
Written for International News Service

ST. LOUIS, Mo.—Mrs. Lon O. Hocker of No. 39 Portland place, St. Louis, is the first woman in this country to be officially decorated by her city for civic benefits she has rendered.

Mrs. Hocker also collected money and started the work in the public schools in finding out who the undernourished children were and why.

As a result community kitchens have been established in many school districts.

Since receiving her medal Mrs. Hocker has been guest of honor of many men's organizations in St. Louis.

SAFETY TANK IS SOUGHT
LONDON—Experiments with an airplane petrol tank, which can be dropped from any height without bursting, have been made at Farnborough Airdrome.

Pastened to a running engine, the tank was dropped from the top of the highest airplane shed onto a concrete base and did not burst. Many airmen have lost their lives through petrol tanks bursting and catching fire.

One has to work pretty hard to make someone glad he's living; though it's worth it.

Children Must Have Right Food Balances

COLUMBUS, Ohio—That many children do not receive the right kind of food is the claim made by Prof. J. F. Lyman, Ohio State University.

"Malnutrition is common in all parts of America and among all classes," declared Professor Lyman.

"A nutrition survey in a state not far from Ohio recently revealed 57 per cent of the children getting enough to eat, but only 11 per cent of them getting food properly balanced to their nutritive requirements."

"The main deficiency was in vitamin-bearing foods, such as vegetables, fruit and milk. Failure to provide such food for growing children leads to conditions which differ only in degree from those in the Balkan countries."

"There, as here, the principal lack is in vitamins. Here they do not have such foods. Here we do not seem to know how properly to use what we have."

Discipline is necessary, but who really likes to enforce it?

GIVES HIS OPINION ON ESTABLISHING NEW CEMETERY

P. S. McNutt States What, in His View, Will Happen If Law Is Changed

P. S. McNutt, 1001 Sierra avenue, Glendale, submits the following communication relative to the court attack being made on the city's cemetery ordinance:

"Editor The Evening News: Glendale is a charter city and has an ordinance prohibiting the establishing of any more cemeteries within her limits.

"The Oak Forest Land & Water company, a corporation, desires to make a cemetery out of Scholl canyon, but cannot do so because of the ordinance against it. And the corporation has now filed an action in the superior court, against the city of Glendale, to annul and cancel this ordinance prohibiting cemeteries which stands in their way.

"Now the people of Glendale are on one side of this case, and on the other side is a foreign, Los Angeles corporation, acting for private financial gain only, and instituted for the express purpose of profiting by putting in Glendale city something she doesn't want, as is shown by her ordinances against it.

"Cemeteries are necessary, it is true. But another one is not necessary in Glendale. It has now two large ones. And it is not at all a necessity to have cemeteries within a municipality among residences. Most of the cities in Los Angeles county have no cemeteries at all within their limits.

It's Not for Glendale

"But this Scholl Canyon project is not to be a cemetery for Glendale. Glendale is only being exploited. The cemetery is to be for the use of Los Angeles city and Pasadena, and will be owned and controlled by a Los Angeles corporation for its own profit.

"One of its projectors candidly admitted last summer that Glendale did not need it, but that they expected to get their patronage mostly from Pasadena and Los Angeles. He said that Highland Park, Garvanza, etc., and Pasadena would come on Colorado boulevard through Eagle Rock to Verdugo road and then up into the canyon. That all East Los Angeles would come up San Fernando road to Verdugo road and then up into Scholl Canyon. That Edendale district would cross Ivanhoe bridge and come up to Colorado boulevard, then over to Verdugo road, and that West Hollywood would cross the Los Feliz bridge and come up Central avenue to Colorado boulevard and all come over to Verdugo road and up into Scholl Canyon to this big cemetery for their burying ground.

"That is a fine prospect, is it not? All these processions would pass our fine new high school grounds, and would proceed to destroy Scholl and Sycamore canyons and much adjoining parts as fine residence districts. "And why would this be? It is not necessary. Both Pasadena and Los Angeles have very large districts near them for their own cemeteries. Pasadena has the whole San Gabriel valley, and Los Angeles has thousands of whole farms within her own limits besides the large tracts of vacant lands south and southwest of her.

"So it is plain that the whole project is purely one of extra pecuniary profit to this corporation. This land is fine for residences and it should be used for residential purposes. poses.

Strong Reasons Against

"Here are some of the reasons against the project:

"First—Great value of the water supply. Water is king in Southern California, and especially in Glendale and vicinity. Time will greatly increase its value. There will always be plenty of dry places in which to bury the dead, but there will not be enough wet places from which to get pure water for the living. We must conserve it. It will be needed some day. Pasadena, Eagle Rock and even Los Angeles herself are searching for additional water supplies. Surely no water supply should be destroyed and rendered unfit for use in this dry country by locating a cemetery over it.

"Scholl and Sycamore canyons provide a large watershed. Much larger than most of you are aware. These canyons come together above the narrow bridge between the Dodge and Carter ranches, and a little above the Sinclair pumping plant on Sycamore road. Through this narrow passageway there flows several hundred miners' inches of pure mountain water, and it is less than 100 feet below the surface of the ground, and the elevation is nearly 700 feet. By putting down a couple of wells and tunnelling across this water could be intercepted, raised to the surface and put right into the city water mains, where it would go by gravity to nearly every part of Glendale. This would not be expensive like going up into the canyons to develop the water, and it would be worth many hundreds of thousands of dollars to the city. Test wells and the extent of these canyons prove that the supply is very large, especially for eight months of the year.

Should Protect Purity

"Would it not be criminal in us, who have the opportunity now to protect the purity of this water supply, not to do so, and in the future when it will be so badly needed, there would be found close above it a large cemetery polluting the water?

"The water, being comparatively surface water, and the earth filled in from the hills, this water could not be taken up just below a cemetery. As we do not have separate pipes for drinking and cooking purposes, all water used in a city must

be pure. You cannot sewer cemeteries. These canyon valleys will furnish elegant residence places for a large number of people, but since there would be no stables or live stock, if a perfect sewer system were installed, as will be done, the sewage would be taken away through pipes without any contamination of the water at all. There are now a number of domestic water wells in Scholl Canyon which must soon be closed up if a cemetery is installed just above them. It will be much easier for the city to keep the underground waters in these canyons pure, than it will be to do so in Verdugo canyon. This cemetery would despoil the water from both canyons, as the canyons mingle their waters a considerable distance above the narrow outlet where the water is easiest raised.

"Second—This canyon district and the near by property are among the very finest residence parts of Glendale, and by reason of the peculiar and unique location, this proposed cemetery at the head of the canyon would create a constant nuisance and be a damage to whole section. The cemetery would be in a pocket reached only by one street which traverses the whole distance for a mile or more. This would be cemetery "row." With ten or a dozen funeral processions each way every day no one would buy property or build good homes on such a street—to the great damage of this property. The nice residence sites all about on the foot of the hills would be ruined, for who would invest or build for a fine view only to look down on rows of funeral trains?

Excellent for Residences

"And this sort of travel would injure and mar the value and beauty of our fine new high school site as nearly all these funeral processions would pass it. This location for a cemetery is very different from one placed out in the open with streets leading to it from all directions. To Scholl canyon there is but the one

street leading to it, and there can be but one.

"Third—The creating of an institution in that proposed place which must need such a very extraordinary use of the street below, would be unfair to the property owners abutting the approaching street. For the cemetery property having no abutting street frontage would not need to pay anything for the upkeep of the streets or sidewalks, yet would use the streets many times more than all of the property owners who must keep up the street for all the long approach.

"Fourth—To prevent the location of this cemetery in the canyon would not in any sense be a confiscation of the property of the corporation. For the land is in an elegant location for a high class residence subdivision, and for other purposes as well.

"Fifth—In what single way would this third cemetery advantage Glendale? In no way at all. Glendale does not need or want it. The project is not fostered by Glendale people, but by Los Angeles parties. Its stockholders and officers are Los Angeles people. Its home is in Los Angeles. The money received for lot sales goes to Los Angeles. The population of the cemetery will do no trading in Glendale, nor will they aid in assisting in any organization for civic improvement. Would it not be much more valuable to Glendale to have this canyon populated with several thousand living people?

"Sixth—Is it not preposterous and absurd for this private money grabbing corporation to attempt to force something on the city she does not need or want? In fact, a thing she has enacted an ordinance against.

"Will any court listen to such an attempt if all the facts are made known to it? Surely not. This city refused to repeal this ordinance a year ago when such a strong protest came from the people. Last year the large Sierra avenue district asked to be annexed to Glendale largely to get the protection of this ordinance against cemeteries. If this ordinance is repealed and the bars let down, the

present cemeteries will be greatly enlarged, and no doubt there will be many new ones to get the increasing Los Angeles custom.

"One of the projectors of the Scholl canyon cemetery has announced on the side that this would be the big cemetery in the San Fernando valley. That it expected to take over the Grand View plant and become affiliated with the Forest Lawn so that the three could pool their interests and keep up to Los Angeles prices.

"Now for action. This cemetery project can be defeated, and it must be done. Each citizen has an interest in the good of every part of the city. The exercise of this general interest is what makes a city worth living in. Will not the various improvement associations, the Chamber of Commerce, the city council, and civic organizations—all the people assist in providing assistance in securing counsel in court, and in getting out the facts?

"P. S. McNUTT,
1001 Sierra Avenue, Glendale, Cal."

—you'll like every inch of Verdugo Woodlands

Glendale folks are waking up to the beauty and surpassing residential advantages of high, healthful Verdugo Woodlands—a "little Switzerland" 5 minutes' drive from Broadway and Brand Boulevard.

Wide-awake Glendale people are moving from the flat no-view sections of the city to this glorious, tree-covered eminence in the historic Verdugo Valley.

Forty years ago the first families of Los Angeles selected these evergreen heights as the favorite spot for their outings. Those pioneers keenly appreciated the woodland charms of this picturesque vale—and only the lack of adequate transportation facilities kept them from establishing permanent homes.

Frequent car service and perfect auto roads make Verdugo Woodlands quickly and easily

accessible to you people of Glendale. Why come almost to the very gates of this delightful foothill living place—and yet fail to go in and take advantage of what it offers from a residential point of view?

People from twenty states have bought homes and homesites here, after searching Los Angeles and suburbs for the most desirable residential offerings. Beautiful homes—our own construction—for sale at \$7500 to \$12,000—cash or terms.

You'll be asked from \$5,000 to \$10,000 for foothill sites in other sections that do not compare in desirability with \$1,000 to \$5,000 sites in Verdugo Woodlands. If this sounds boastful to you, go out with us any day at our expense and let us prove it. An appetizing Spanish luncheon will be served at noon. F. P. Newport Co., 115 West Broadway, Glendale. Much credit is due to Mrs. Ralston and Mrs. Montgomery for their untiring efforts in making the program a success and also to the members of the cast, all of whom portrayed the various characters admirably. The humorous scene in Act V, when the farce was presented by Pyramus, Thisbe, Wall, Moonshine, Lion and the Prologue, was most heartily received and was the cause of much laughter. At the close of the program Mrs. Ralston and Miss Litch were presented with bouquets of carnations and ferns by Mrs. Montgomery on behalf of the members of the section.

Certain percentage will be allowed for the name of the composition and for the name of the composer.

Mrs. Jones also made the statement that the daily newspapers have contributed prizes for the contest and other business houses have also contributed others. There will be first prize for those of high school age, first prize for those of grammar school age and first prize to the general public, as well as other prizes.

ASKS INDORSEMENT OF C. OF C. FOR TRUCK PROJECT

Concern Plans to Build on San Fernando Road If Given Encouragement

Ira L. Miller of the Pacific Reliance Truck Manufacturing company of Appleton, Wis., appeared before the board of directors of the Chamber of Commerce yesterday afternoon and sought their indorsement of a manufactory here which will assemble these light speed wagons and build trailers.

"The truck industry today is just where pleasure car production was ten years ago," he told his hearers. "During the war we established the Reliance truck against all odds and it has succeeded. I have come to California with contracts for the distribution in eleven western states, the Hawaiian and Philippine Islands, Japan and China and the Far East. We are building a three-quarter ton truck, capable of making forty miles an hour and mechanically simple. All we ask is your indorsement so that we can take measures to finance a plant here which will employ local residents."

Site Is Already Chosen
Already Mr. Miller has picked a site on the San Fernando Road between Los Angeles and Burbank and it is his intention to establish the enterprise in this vicinity because of the many advantages, especially the advertising to be gained on the main highway between San Francisco and Los Angeles—the San Fernando Road.

Mr. Miller's project was taken under consideration by a special committee of the directors in the absence of Chairman W. E. Hewitt of the industrial committee.
